- Design: black
- Cooling system: hybrid
- Type of cold: static frost
- Adjustable temperature range of use: 11°C-18°C
- Electronic regulation
- Thermometer with white electronic display
- White LED lights with switch button
- 1 glass door, 3-layers tempered glass (grey-colored)

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.
This equipment is designed to be used in an ambient temperature between 16°C-32°C.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 6 shelves. Adding shelves reduce considerably the total capacity.

The pleasure of tasting

Bring the wine to the ideal tasting temperature to fully savor all its aromas. The CC28F hybrid service cellar is an aesthetic and space-saving solution to ensure intense tasting moments. Its compact format allows the temperature setting of 28 bottles.

The discretion of the service

Thanks to fanless hybrid technology, the CC28F cabinet has a low noise level of 26 decibels. Discreet, the cellar is suitable for use as a living room.

Timeless and modern

The CC28F cellar has a glass door with exterior control panel, flat hinge and integrated handle. Its minimalist aesthetic and the black color make it timeless. The interior fittings in steel wire shelves with wooden pediments ensure air circulation and allow optimal maintenance
